

Relationships, Achievement, Responsibility, Respect

30 April 2024

Dear Peter Naylor
Chief Executive Officer
Trayning Shire

Dear Mr Naylor

I hope this letter finds you well. I'm writing to share with you what I perceive to be an exciting idea. I would like to propose shifting the Shire Community Library to become part of our school's new Community Hub Library. This would allow us to create a shared space that serves both our students and the wider community, bringing everyone together in a vibrant learning environment.

By merging these resources, we can create an enriched learning environment for both students and the broader community. It would allow us to share resources and expand access to a wider range of books and technology. This combined library would have a dedicated 'Community Hub Library' section, which could host events, workshops, and educational programs, encouraging students and community members to interact and share knowledge. It would be a nice way to strengthen community bonds and create a vibrant learning space, fostering a greater sense of community engagement.

Additionally, if there are any existing resources from the Shire library that we could incorporate into this new community hub, that would be incredibly beneficial. We would also be interested if there are any available funds that may be available to us to assist in helping to make this a special place for our community members

Thank you for considering this idea. I'd be delighted to discuss it further at your convenience.

Warm regards

VICKI MACDONALD
