Subject: Recycling bin

Dear Peter,

Regarding the towns recycling bins.

I feel, as a rate payer, that this service is not value for money at all and nor is it used to its full potential, as we are mainly an aging community with residents that are mostly single.

I also feel that this service fee is too high and residents do not have the choice to not use it and not pay for it.

I am asking you, and members of council to please reconsider this particular service to the community and if it is still viable to keep it.

In these ever growing price increases, re evaluation of importance is a natural progression moving forward.

Kind Regards

Louise Masser
